JVSOLINDIA INC

Foundry DASHBOARD Mobile Application

Industrial Sand Processing & Quality Control

Dual PLC Integration with MySQL Database

| Cooler PLC | Mixer PLC | MySQL Database |

Foundry Mobile Application

- Mobile access to foundry production information
- Centralized dashboards and reports
- Designed for engineers, supervisors, and management

JVSOLINDIA INC

System Overview

- Unified Mobile Access Platform
  - Acts as a bridge between users and foundry systems
  - Displays live data, reports, and charts
  - Ensures consistent access across devices

JVSOLINDIA INC

Key Capabilities

- Enterprise-Grade Foundry Application
  - Dashboard viewing and report analysis
  - Secure document downloads
  - Smooth navigation between sections

JVSOLINDIA INC

Data Visualization

- Clear & Actionable Insights
  - Graphical trend analysis
  - Tabular production data
  - Quick identification of performance variations

JVSOLINDIA INC

Document Management

- Report Export & Storage
  - Download reports for offline reference
  - Automatic file organization
  - Clear download confirmations

JVSOLINDIA INC

Application Screen Overview

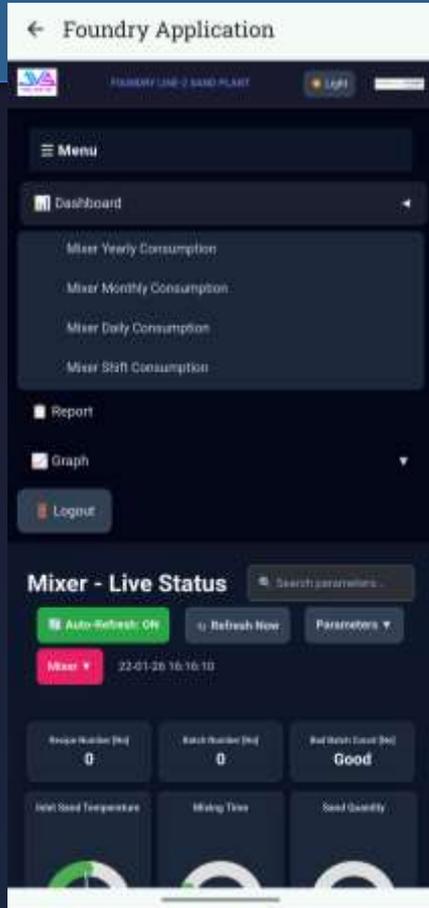

Foundary Dashboard Mobile Application

Production Dashboard View
    Displays overall production status
    Quick navigation to reports and charts
   Provides high-level operational visibility

JVSOLINDIA INC

Application Screen Overview

Report Data Screen

Shows detailed production parameters

Tabular format for easy review

Supports scrolling for large datasets

Foundary Dashboard Mobile Application

JVSOLINDIA INC

Application Screen Overview

Foundary Dashboard Mobile Application

Graph & Trend Analysis
- Visual representation of production trends
- Helps identify variations and patterns
- Supports performance comparison

JVSOLINDIA INC

Application Screen Overview

Foundary Dashboard Mobile Application

Detailed Report View
- Focused view of selected data records
- Supports analysis of individual parameters
- Improves decision-making accuracy

JVSOLINDIA INC

Application Screen Overview

Foundary Dashboard Mobile Application

Download & Export Screen
    Allows users to export reports
    Ensures files are saved correctly
    Supports offline access to documents

JVSOLINDIA INC

Application Screen Overview

Download Confirmation
- Notifies successful report download
- Ensures user confidence in file storage
- Provides quick feedback

JVSOLINDIA INC

Benefits & Applications

- Why This Application Is Useful
  - Improves accessibility to foundry data
  - Reduces dependency on desktop systems
  - Supports faster operational decisions

Conclusion

- Reliable & User-Friendly Foundry Solution
  - Enhances visibility of production data
  - Simplifies report access and storage
  - Designed for industrial usability
